BUSINESSMEN AND CHURCHMEN WELCOME MIKOYAN

"I will sell the Capitalists the rope with which they will hang themselves and they will buy it because they will make a profit on the sale." This caustic and contemptuous comment is attributed to Vladimir Lenin.

The degree of truth in this cynical boast is shown by the incredible reception given by many American businessmen to Anastas Mikoyan, Deputy Premier of U.S.S.R.

The most cursory examination of the record of Mikoyan should indicate his unfitness for a welcome in any gathering of decent people. He was prominent in the Communist hierarchy before his present master, Nikita Khrushchev. To maintain his position he has had to prove his adeptness at brutal murder many times. He was associated with Joseph Stalin in the most brutal and sadistic betrayal of friends to torture and death, history has recorded. He watched his old friends and comrades led one by one to the slaughter. More recently he was an integral part of the butchery of Hungary.

Apparently, with a considerable segment of businessmen these crimes can be forgotten because he has an urbane manner, a ready wit and a quick tongue. It is forgotten that personal charm is always the stock-in-trade of the confidence man. Stalin himself impressed his negotiators with his "fatherly" manner. He earned the titles, "Good old Joe," "Uncle Joe," while the depths of his sadistic infamy stagger the mind.

Sometimes it is the duty of fine Christian individuals to negotiate with the most evil characters. If a man has kidnaped a child from the home, the parents would certainly negotiate with the kidnapper, however evil, if there was a chance of securing the child's release. From this point of view it may be possible to justify the official conferences with the malevolent visitor. For the honors bestowed upon him by businessmen and churchmen, there is no excuse. It was a betrayal of their heritage of freedom, meriting loathing and contempt.

We owe a debt of gratitude to those who had the courage to picket this man of evil and remind us of his record.

To those concerned for the survival of Christian civilization from the advancing brutal barbarism of Atheistic Communism, the naivete of so many in responsible positions was discouraging but not surprising. It stresses the necessity of a vast, continuing educational program so that the true nature of Communism is understood by all the American people. Only then will there be a defense against these agents of evil. A prostitute is a prostitute however beautiful her dress. Tuberculosis is a vile disease even though it may temporarily bestow a "false hope" upon its victim. Communism and its agents remain the advocates of atheism, human bestiality, class warfare and Communist world conquest.

These facts must be driven home to the American people. The days ahead will tell the measure of success achieved by this smiling salesman of the hangman's rope.

OPERATION TESTIMONY

I am sure that no representative of the Allen Bradley Co. of Milwaukee would be found in the businessmen entertaining Mr. Mikoyan. They continue to take the lead in the fight for the survival of freedom. They published again the Testimony on the Communist Mind under the heading, "Will You Be Free To Celebrate Christmas In The Future?" in a large number of newspapers during the Christmas season just past. The cities included Boston, Massachusetts; New Orleans, Louisiana; Phoenix, Arizona; Miami, Florida and Ann Arbor, Michigan. Letters are streaming in.

All round the world the tide flows:

England

England-Common Cause, Limited

Dear Doctor Schwarz,

A member of my Executive Committee some months ago brought before his colleagues a copy of the testimony you gave before the House of Un-American Activities earlier this year.

My Committee believed this to be a brilliant and penetrating analysis of Communism, and the Editor of our bulletin (Mr. H. W. Henderson), another brilliant writer on the subject, published a full summary of your testimony in two consecutive issues of our bulletin.

Before the second issue appeared, there was already a demand for re-production in pamphlet form. This pamphlet has just been produced, and I have pleasure in enclosing copy.

Several thousand copies have already been distributed free by us to all members of the Government and the opposition in the House of Commons, and to members of the House of Lords including Bishops. We have also sent them to all national, daily and Sunday newspapers, and to leading weekly magazines; also to provincial papers throughout the country. Additionally, several hundreds have been sent to University students.

A free copy has also been sent to each of our members.

My Committee sincerely hopes that, by making these pamphlets available to the public at cost price, bulk orders will be received which will permit a further wide dissemination of your expert knowledge.

I should add that I also sent a number of copies to the United States Information Service in London, with whom we are in close and friendly contact.

Yours very truly,
Hugh Myddelton
Executive Director

Africa

Sudan Interior Mission, African Challenge, Lagos, Nigeria, W. Africa

"We appreciated your generous offer to provide our missionaries with copies of Dr. Fred Schwarz's book, "The Heart, Mind and Soul of Communism." This book provides a very objective analysis of Communism and no doubt could be of help to our people. I am sending a copy of this letter to our Mission leaders so that they could let you know direct how many copies they could use and how they could best be distributed.

"Could we have your permission to reprint parts of Dr. Schwarz's booklet in our publication, *African Challenge?* We believe that for the advancement of the gospel in this continent, we should seek to warn the people about the dangers of this godless system.

Yours sincerely,
Harold Fuller, Director of S.I.M. Literature"

Sudan Interior Mission Addis Ababa, Ethiopia

"Your statement 'I find that without exception missionaries literally hate Communism but do not understand much about what it is' is quite true. We would be very happy to receive something like 200 copies of the booklet "The Heart, Mind and Soul of Communism." These we would distribute to our workers in Ethiopia and Somalia.

"We would also appreciate it if you could send a number of copies, say 40, to our Sudan field.

Walter A Ohman
Field Director"

Sudan Interior Mission Jos, Nigeria, W. Africa

"We are greatly interested in your offer to provide our missionaries with copies of the book entitled, "The Heart, Mind and Soul of Communism" by Dr. Schwarz. We value this offer, and in answer to your query, would state that we have approximately 700 missionaries on the field in West Africa at the present time.

"We will be interested in hearing from you again as the Lord may lead. Please be assured of our interest in the work you are doing and our awareness of the great menace of this teaching.

R. J. Davis"

Sudan Interior Mission

"I am very happy to learn from our mutual friend, Harold Fuller, of Nigeria, that you are prepared to make available to our missionaries, copies of Dr. Fred Schwarz's wonderful booklet, 'The Heart, Mind and Soul of Communism.'

"We want to thank you most heartily on behalf of the Sudan Interior Mission for this most gracious gesture on your part, and trust that this book will have a mighty influence through our whole mission body from one side of

Africa to the other.

Rev. A. D. Helser, Ph. D.
General Director"

Andhra

The printing press here is used to proclaim the Gospel message in the Telegu tongue.

Devananda Rao writes:

"Our little Babu is enjoying very good health by the most abundant grace of our beloved Father and we do thank Him.

"We have selected some ICC Evangelistic Centres and our ICC Workers would stay in those centres and preach the Word of God in the surrounding villages. They distribute Tracts, N. T.'s, Books and Bible to the needy. They conduct night open air meetings. They do house visitation work. They prepare the people for baptisms. It is true that there is a wrong notion in the minds of various villagers that Christianity is the religion of the white people and that all the Evangelistic workers are the agents of Americans and Europeans. The Communists and the Aryasamajists have been mispropagating like this and it has been firmly rooted in the minds of various people. We are combating these foes in a Christian-like way with the help of the Word of God. The Communists and the Aryasama-jists would argue with us when we conduct the night open air meetings in the villages. Their arguments are quite baseless and senseless, but we do answer their every bit of question very carefully with real Christian love so that there may not be any danger to us, since the Communists are capable of murders. We use Gospel Records, Pictures and slides and films-strips in our meetings and people hear the Word of God with a real interest. We have a 35 m.m. still projector, and we need some good slides and filmstrips. Pray for them. The \$15.00 monthly assistance to each worker has become quite insufficient since the rates of the food-stuffs, clothes and the other commodities have been doubled. We need \$25.00 a month. I gave the \$15.00 estimation sometime in 1956 and now the situation is not so. So, will you mention it also when you speak of our work?"

Korea

"Let me thank you again for the 70,000 edition of "The Heart, Mind and Soul of Communism. It is now being distributed to the troops, both in the First Army and the Second Army areas. The Korean Bible Society is also distributing copies through its colporters. We are distributing other copies through our Christian Revival Fellowship here in Taegu and in other ways this book is going throughout south Korea. Please give our deepest thanks to all who have had part in this initial project. We hope that we can soon follow up with a second edition which will reach more men and boys in the armed forces as well as more of the civilians in south Korea.

"I did not know that you have a film out, 'Crimson Shadow.' We can certainly use two copies of this film in the very near future. I know the Korean Chief of Staff, General Paik, would be more than glad to have this film shown in the Korean army. The chaplains would be more than eager to do this job. At the same time our Christian Revival Fellowship is anxious to show the film to the Korean public. We can show it in most of the large churches as well as smaller churches throughout south Korea. There are over three thousand churches that would greatly benefit by this film. At the same time we would invite the general public and it would be an evangelistic opportunity on the one hand and the opportunity to show the fallacy of Communism on the other hand.

Capt. Kim in the ROK Chaplain Headquarters has asked me for a film which they can use in their itinerating work among the ROK chaplains and different units. This would certainly fit the bill. Let me hear from you at the early convenience both as to the film and future printing of Heart, Mind and Soul of Communism for Korea."

South America

The testimony is now being circulated to South America.

"I had 35,000 copies of "International Communism" – staff consultation before House Un-American Activities Committee – printed. I subsequently had 10,000 more copies printed which I am distributing throughout the country.

"I am now having the Spanish Translation printed for distribution throughout the Latin America countries.

Jack Danciger,
Fort Worth, Texas"

Thank God for patriotic Christian businessmen.

LOCAL GROUP FORMED TO COMBAT COMMUNISM

By Rev. Stanley R. Allaby, Pastor of Black Rock Congregational Church in Bridgeport, Connecticut

Dr. Fred Schwarz spoke in our church on Saturday night, June 14th. His topic was "The Communist Plan and Timetable for the Conquest of the United States." Following his presentation, we all sat somewhat stunned. We did not want to go home for we felt that in the face of the danger of which we had just heard, we must do something immediately.

It was one of our fine Christian laymen, a medical doctor, who made his way up to the front of the auditorium and began asking Dr. Schwarz how we might proceed on a local level to carry on the fight against Communism. Dr. Schwarz offered some very helpful suggestions, but said that actually we would be pioneering in this field and we would have to feel our way along. The purpose of this article is to share with others what we found and how we have proceeded with the hope that other such groups will spring up all across our country.

On Sunday morning we announced that that afternoon there would be a meeting of all interested citizens at the pastor's home. Having it in the pastor's home did two things. It made the place of meeting more attractive than just announcing a room number in the Christian Education Building, and it showed the congregation how vitally interested the pastor was in this cause. The general announcement was followed up by phone calls which urged our leading members to be present. The Pastor and the Doctor made these calls. At the beginning of such a movement, it is very important for the two or three interested people to do a great deal of personal contact work. Only in this way will the group gain enough impetus to carry in into a program which will be both ambitious and effective. You may be the one to spark such a program in your church or community.

About twenty-five persons attended that Sunday afternoon meeting. There were representatives from almost every organization of the church present. We were careful to have the youth leaders in attendance.

After a season of prayer, Dr. Campbell told the group why we had assembled and a general discussion was held as to what we might do on the local level to combat communism. Notes were made of the discussion and these were evaluated at a later time. Some of the suggestions were excellent. Others proved to be worthless in the light of careful review.

The main accomplishment of this meeting was to have each person in attendance pledge their own personal support to this work, and the appointing of a smaller committee to investigate plans of action and then report back to this larger group. Dr. Campbell was appointed Chairman of the committee and other members included two men from the educational field and a business man. Further, every person present was urged to read as much recommended literature on this subject as possible.

The smaller committee began meeting every week. The first problem which they tackled was the problem of a name for our group. This may seem like a minor problem but it was actually quite difficult. The name must be in good taste. It must not carry any unfortunate connotations. It must convey the purpose of the group. It must be of such nature that the Government will grant gifts to this group as deductible from Income Tax. The name finally settled upon was Americans Safe-Guarding Freedom.

The second step was to incorporate and to apply to the United States government in order to gain a deductible status for our group. The services of an interested lawyer were donated in this cause. Because such deductions as this usually involve a great deal of time and red tape, we found that there might be an advantage in becoming an affiliate of some established movement such as the Christian Anti-Communism Crusade.

The third step which our committee took was to invite the Pastor to teach a series of classes on the philosophy and tactics of Communism. This class was held for fifteen weeks on Wednesday evenings before our prayer meeting. This class was designed to execute the most logical approach to the problem – that of being informed so that opposition may be intelligent.

During these weeks of instruction, our smaller committee used their privilege to expand by adding a book seller and an efficient secretary to their committee. New members of the committee were cleared through the F. B. I. The book seller used his contacts and knowledge in order to make good reading material available. Books were sold and more expensive books were offered on a rental plan. Much free literature was also made available. The importance of the secretary is quite obvious to every reader.

As the committee expanded even more, it divided itself into sub-committees. One sub-committee on Education found some excellent secondary text books on the subject of Communism versus Democracy along with many excellent films and film strips. These are being recommended to the State Board of Education and to our local school authorities.

Another sub-committee on advertising is planning a series of newspaper ads to alert the general public to the danger of Communism. Another committee is working on radio-television possibilities.

One of the vital functions of this committee is to encourage and aid in the formation of other such committees in other parts of our state. Such a meeting was called to which ministers and laymen were invited. It seems probable that other such groups will be formed as a result of this meeting.

After five months in existence, the committee felt that it was time to invite Dr. Schwarz back to the city for a city-wide rally. A local high school auditorium was used so that people of all faiths would attend. The rally served two purposes. It alerted our whole community to the threat of Communism (The newspapers gave us fine cooperation), and it recruited new workers for our committee. Other such rallies are being planned for the future.

It is amazing how many interesting and helpful contacts you will find once people know that you are engaged in such a work. We have had a former F. B. I. Man who joined the Communist party in order to work for the United States government offer to speak to our group, school teachers are bringing us sample text books on this subject, people are sending us magazine and newspaper articles which are relevant, others are offering their specific talents for the committee to use. Our people are getting us opportunities to address local civic and business groups including the Chamber of Commerce, Fraternal Orders, Church clubs, etc.

Many people are willing to pitch in and help, but there has to be a group started and someone has to start it. Why don't you start such a group in your community?

SCHOOLS FOR ANTI-COMMUNISTS

There is no shortcut to success in any field. The old saying that genius is 10% inspiration and 90% perspiration remains true. This applies in the field of anti-Communism. Ignorant opposition to Communism is frequently effective service to it.

All this has been said many times. Our positive answer to the well-meaning anti-Communist who is frustrated by lack of knowledge is the Anti-Communist School.

We have now conducted two of these schools, one in St. Louis, Missouri and the other in Long Beach, California. The reaction of all participants convinces us that every effort must be made to hold them in every section of the country. This year we plan to hold schools in Indianapolis, on the East Coast, and in Seattle.

Many people who are unable to attend the schools may receive the benefits via tape. Every message is recorded and may be secured by writing to W. P. Strube, Jr., Secretary, Christian Anti-Communism Crusade, PO Box 6422, Houston Texas. Recorded on tape are the messages of Ricahrd Arens, Director, House Un-American Activities Committee, Congress, U.S.A.; Congressman Walter Judd; Dr. Fred Schwarz; Rev. Leslie Millin, Director Freedom Foundation of Canada, and many others.

The attendance at the Long Beach School included Security Officers of the Los Angeles Police Dept. and the Los Angeles Sheriffs Dept., as well as ministers, students, teachers, and patriotic citizens. The following comments from those attending the school are eloquent:

"This has been the most informative week I have spent in my entire life."—Charles Sarvis, Seattle, Washington

"After the School at Long Beach, life takes on different proportions. The value of our present liberties leaps to unprecedented heights. These liberties are worth preserving at any cost. The time for such pursuits can only be now. The miracle of these tapes is a marvel. I have been invited already to speak for C.B.M.C., service clubs, church groups, etc. Already we have announced the opening of an evening clinic here in Salem to begin after Christmas on a one night a week basis."—Walter Huss, Salem Oregon

"This past week has given me more information that my husband has gained in his three years of reading. During the week of listening and learning I had more than one tear fall. It was difficult to be so shaken but wondrous to hear what prayer can do."—Mrs. Tootie Lund, Hawthorne, California

"It was Christ-centered and adequately demonstrated the power of the Gospel in combating Communism. I would not want any of the speakers, the material, or the sequence of presentation changed. The films and tapes were very worthwhile. This week left a challenge we dare not forget and by God's grace, my wife and I will more effectively lend ourselves to anti-Communism both in living and giving."—Russ and Bonnie Nora, Los Angeles

"My brain is whirling with,

1. An amazing amount of information on the History and Philosophy of Communism
2. A good working knowledge of the Communist Party mechanism and the methods by which it operates
3. The horrible atrocities people in China and elsewhere have to endure when Communism takes over

I have enjoyed the Christian Fellowship.

As a Newspaper columnist I have an opportunity to help our cause."—Pat Beardslee, Hawthorne, California, Del Aire Improvement Assn., Inc., Ingelwood, California

If you desire further information about the schools, or if you have any suggestions, please write.

TROOPS READ "HEART, MIND AND SOUL OF COMMUNISM"

"Dear Dr. Schwarz:

"Greetings in the name of Jesus Christ our Lord. We take this opportunity to express our deepest appreciation to your interest in and help for Korea especially with your wonderful booklet, "Heart, Mind and Soul of Communism."

"For its second edition, we have printed some 70,000 copies for the special distribution among the ROK Armed Forces. Korea is the frontline to the Communist and it is indeed a precious contribution that your booklets let the

ROKA soldiers know what Communism is and the Gospel of Jesus Christ as well.

"May God bless this booklet and your further endeavor in soul winning for Christ.

"Yours in His service,
Christian Revival Fellowship
Rev. Thomas U. Kim
Managing Director"

DR PIETSCH GOES "HOME"

On the morning of February 2 at 9:00 a.m. Dr. W. E. Pietsch, President of the Christian Anti-Communism Crusade, passed on to be with our Lord. He had been suffering for a long time but continued his work with great courage and indomitable will. His loving wife and fine missionary family will miss him sorely, as will we all. There is great comfort in the knowledge that, "If we die with Christ; we shall also live with Him." To know that the work of our Crusade would continue was one of the dearest wishes of his heart. By God's Grace, we shall not fail.

KERALA-INDIA

"What progress are you making towards the daily newspaper for Kerala, India?" I am frequently asked this question. This cable has now arrived.

"Rotary Press machine priced \$19,000 dollars. Wish order purchase. Need pay \$5,000.00 in advance, balance payable three installments within ten months. Awaiting advice. -George

Can you help?

George Thomas writes:

"We have already concluded the contract for the purchase of the property. So far we have received \$2,400 for this purpose. According to the contract the balance has to be paid within the next twelve months. This, indeed, is a miracle, Bill, and how I think the Lord for this wonderful provision. I do trust the Lord would supply the balance in His time.

"I am eagerly awaiting for the Lord to supply the needed funds for the paper. I need not tell you, Bill, that Jets and Missiles will not win the battle in Kerala. But pen and ink will. We must start the paper as soon as possible. I do trust that you will go all out in your efforts to make the daily paper possible in the near future.

"The entire staff in the Viswadeepam office joins me in wishing you and all your associates a very happy Christmas and blessed new year."

CHINA

"Dear Dr. Schwarz,

"Please pardon my delay in replying to your good letter of Nov. 19th. When it arrived Mrs. Ming was quite sick and I was extremely busy. These days, the 'World Order Study Commission' of the N.C.C. has created more opposition among the Formosan Protestant Church by its outrageous and iniquitous recommendations. A meeting of Protestant leaders was called last week and we have wired a strong protest to the N.C.C., also sending our protest by mail to President Eisenhower, the Vice-President and the Foreign Minister. We would like to know of any actions taken or resolutions formulated by your C.A.C.C. We also would like to know of the results of your testimony. May God add His blessing!

"We fight on here in Taiwan day by day. All classes of people in Taiwan are enthusiastic about devoting themselves and their possessions to the promotion of the 'Anti-Communist Front' sponsored by President Chiang. All Christians should take 'Put on the whole armour of God, that ye may be able to stand against the wiles of the devil.' Victory in this great warfare belongs to our Lord Jesus Christ; because light and liberty must conquer darkness and slavery.

"Thank you for your encouragement! We will surely hold fast until the victory is finally won.

"Mrs. Ming, Rev. Wang Shih Ping join me in Christian love and comradeship.

"May you and yours have a very happy Christmas and may the Lord bless you all.

"Yours in Christ,
Andrew K. T. Ming"

THE CRIMSON SHADOW

This film is bearing fruit. Typical is the following extract from a letter, showing what an individual can do.

"The film has been going 'great guns'! For example, the film has had six dates this past week in the Mequon,

Wisconsin area . . . not far from here. I telephoned the couple who have it last night and said that I had a request for it here next Tuesday night and they asked to keep it through the weekend because they have several other places to show it. I don't stay with the film anymore. . . . I simply deliver it from place to place. We have all fallen into a routine when the film is shown. First, we introduce you and tell a little about you and the Crusade while everyone is looking over the Allen-Bradley testimony . . . then the film . . . then we have a question period in answer to your question at the end of the film, 'and what are you going to do about it?' This is where we get into the discussion about books and publications.

Mrs. Walter Kenneth Graham
Milwaukee 11, Wisconsin"

CONCLUSION

Mikoyan comes and goes; submarine markers are reported off the American coast to enable submarines to project their missiles with pinpoint accuracy on major cities; the cowardly voices of surrender swell in volume; our churches invite communists who are atheists to speak in their pulpits, and in many cases, church literature urges the recognition of Red China, and the admission of Communist China to the United Nations; the bulwarks are crumbling; the enemy comes in like a flood. God alone is adequate. He works through men. He needs you. Come to Him through Christ. Give Him your heart and hand and march forward to victory.

Fred C. Schwarz
Executive Director
Christian Anti-Communism Crusade
