## NEWSLETTER

March 1, 1982

Dear Friend and Colleague,

I am excited and enthused as I write this letter because we have an unprecedented opportunity to present the truth about communism to all the students and teachers of an entire nation. Please read this letter carefully and completely and let me know if you share my enthusiasm and vision.

Do you agree that it makes more sense to prevent the recruitment of guerrillas than to spend enormous sums, and to sacrifice young lives, to fight the guerrillas after recruitment?

Consider how the U.S. Government is seeking scores of millions of dollars to provide weapons and advisers in a last ditch effort to prevent communist guerrillas conquering El Salvador. The situation in Guatemala is also ominous. It is almost certain that hundreds of millions of dollars will be needed to prevent the communist conquest of Central America.

This expenditure is justified because the consequences of the communist conquest of Central America will be devastating for the United States. The conquest of this area is part of a master plan, designed and executed by the Soviet Union, to encircle the United States militarily, economically and psychologically. The communists believe that such encirclement, combined with internal demoralization, will lead to U. S. surrender by an insidious step-by-step process.

### Communist Armies

Once the communists have conquered a country, they immediately militarize it. Almost all the young people are conscripted into a huge army. This army is trained by international experts and supplied with modern weapons by the Soviet Union. It is protected during its formative stages by the military power of the Soviet Union. U.S. military action is inhibited by the fear that decisive action may cause an atomic or thermonuclear war. In this way communist military power grows while U.S. efforts to restrain it become increasingly expensive and ineffective.

The communists have already conquered Cuba, Nicaragua, and Grenada; they expect El Salvador and Guatemala to be the next to fall. The military might of Cuba is now legendary and an army of 300,000 is being recruited from a population of 2 million in Nicaragua.

History has shown that the communists cannot provide for the material well-being of the people they conquer; but they can recruit, train, and control large armies.

We do not need to be intellectually brilliant to see that it would have been wise to try to prevent the recruitment of communists in these countries instead of waiting until the guerrilla war is raging before taking action.

### Guerrilla Recruitment

Most of the communist leaders are recruited with the aid of attractive literature, filled with seductive lies about communism and selective slander of the U.S. This literature is given to them at little or no cost while they are students.

### The Truth

The record of communist achievement in the field of human rights and well-being is abominable. It is a record of inadequate food, associated with the regimentation and enslavement of the populace, and periodic orgies of controlled slaughter. This record has been written. The facts are clear; they do not need to be imagined. Nothing can be more

anti-communist than the truth.

This record is not self-proclaiming; it must be told. Let us tell it to the students of the world.

We cannot unwrite history, and we cannot prevent the recruitment of guerrillas in El Salvador. We can prevent the recruitment of guerrillas in other countries where the communist program remains in its early stages.

Opportunity in Taiwan

We have a splendid opportunity in Taiwan right now. The government has given the Christian community permission to distribute the book, "Why I Am Against Communism", to all the students and teachers of the Republic of China. The following letter from the fine Christian leader, General Samuel S . C. Wu, has just been received. I worked closely with General Wu when I participated in a Christian Conference in Taiwan in October, 1981, and he is a most devoted and efficient Christian gentleman:

(Tel): 7813481, 5518883

(Telex): 21744 STEELTRAD

Address: Rm. 104, 10th FL,

9, Sec. 1, Chang An E. Rd.

Taipei, Taiwan, Rep. of China

CHRISTIAN THANKSGIVING RALLY IN CELEBRATION OF THE 10TH YEAR OF THE FOUNDING OF  
REPUBLIC OF CHINA

THEME: Revival of Chinese Church

DATE : October 11-14, 1981

VENUE: Taipei, R. O. C.

Jan. 20, 1982

Dear Dr. Schwarz,

Glad to inform you that the authority has eventually agreed to distribute your booklet "Why I Am Against The Communism". The reason they delay to give their answer was due to the year end busy time of all official organizations and complicated coordination among all departments involved, yet they finally unanimously agreed to distribute your writing.

We like your book because it is not only Anti-Communism but also against atheism, meantime it serves as a means of gospel preaching to react those political minded yet antagonistic against Christianity for some reason. Therefore we value very highly of your writing.

As to the distribution, we believe your booklet can easily be understood by the senior high school students and above. However we have to consider the fund available for printing and distribution. In distribution, we believe that the professors in colleges and teachers in high schools should be distributed also because to win one teacher is to influence many students.

We hereby list 8 courses of distribution ( please see Courses of Distribution of " Why I am Against Communism inclosed herewith ) for your choice. We can only print this pamphlet with the fund you have kindly promised to contribute. We are working to set everything ready for printing your booklet, and shall start to print as soon as we

receive your answer.

Yours in Christ,

Samuel S. C. Wu

While in Taiwan, I met with many Christian and national leaders and frequently heard

this lament: "We are anti-communist, but we don't understand what communism really is.

This is not surprising as suffering the ravages of communism does not necessarily lead to understanding its doctrines and purposes??even as being knocked down and mangled by an automobile does not automatically make the victim a qualified automotive engineer.

### The Advantages

The advantages of distributing this book are many. Consider:

1. The message of the book is clear and understandable. Those who read it are unlikely to be deceived and seduced by communism. That experienced expert on communist doctrine and practice, J. G. Sourwine, former Senior Counsel of the Senate Internal Security Subcommittee wrote:

"You have captured and pinpointed in this thesis the very essence of the Communist threat. You have delineated its scope as a world-wide menace. You have told why we must fight it, how to fight it most effectively. You have created one of the most valuable weapons against Communism that is available to us today. For the enlightenment of others, a major program for eventual translation into all languages should be undertaken. God help you in your work."

2. Once distributed, the book will be read by many students. This is guaranteed because it will help the student learn English, which is a primary ambition of most students. The text will be in both Chinese and English on facing pages.

3. The message will spread to many other countries in Asia. Many thousands of overseas Chinese are studying at the colleges and universities of Taiwan.

4. The message is almost sure to reach the Chinese mainland since communications between Taiwan and the mainland are improving.

5. Once this project is successfully completed, it will serve as a model for similar programs in other countries.

6. The cause of Christianity will be advanced.

### Make Your Choice

We have been offered a number of options for partial or complete distribution, and the one we select will depend on the amount of money we can invest. My strong preference is to send it to every senior high school student, every college student, every high school teacher, and every college and university teacher. Altogether, this would be to 619,500 individuals, in the following categories:

415,000 Senior High School Students

175,000 College and University Students 20,750 High School Teachers 8,750 College and University Teachers

The cost of this project will be \$76,725. For the Crusade, this is a large sum even though it is only 11 cents per individual, which is little more than half the price of a postage stamp.

The sum appears an insignificant trifle when compared with the money being "loaned" to sustain communism in

Eastern Europe. Western bankers and governments have loaned Poland \$27 billion during the past few years even though the prospects of its ever being repaid were never bright. We were shocked to learn that the U.S. Government recently decided to repay \$400,000,000 that Poland owes to American banks even though Poland has not been declared to be in default.

We can raise and invest \$76,725 by each of us doing our best. Gifts of securities and real estate are welcome.

I enclose a list of available options. Which one do you select? Check your selection and also what contribution you can make to transform the selection from a proposal into fulfillment. We must tell the students and teachers the truth about communism before they are deceived, ensnared, and transformed into anti-U.S. guerrillas.

With Christian love,

Fred Schwarz President

P.S. The full significance of current events in El Salvador, Guatemala, and Nicaragua can only be understood when the communist formula for the conquest of the U. S . A. is known. This formula is:

"External encirclement, plus internal demoralization, plus thermonuclear blackmail lead

to progressive surrender." This formula is available on envelope and bumper stickers. The message: "Communism brings less food, more fear, ask the Poles", is also available.

Christian Anti-Communism Crusade

February 15, 1982

Dear Friend,

J. G. Sourwine was Senior Counsel of the Senate Internal Security Subcommittee for many years. In that capacity he interrogated many communists, fellow travelers, Marxists, ex-communists and refugees from communism. He was responsible for the publications of scores of authoritative essays, articles and books on communism. Few living individuals possess his encyclopedic knowledge of communist theory and practice.

I was greatly encouraged when he phoned and later wrote this verdict on the message of the book, "Why I Am Against Communism."

"You have captured and pinpointed in this thesis the very essence of the Communist threat. You have delineated its scope as a world-wide menace. You have told why we must fight it, how to fight it most effectively. You have created one of the most valuable weapons against Communism that is available to us today. For the enlightenment of others, a major program for eventual translation into all languages should be undertaken.

"God help you. in your work."

The distribution of the English and Spanish editions of this booklet is proceeding. I have a dream--no, a vision--of its being translated and published in at least 10 languages in the near future. Will you share this vision with me and contribute to make it a reality?

We are advocating two programs which are separate but related:

1. A worldwide truth campaign conducted by the national authorities This campaign could be financed by a sum equal to one percent of the military budget. 2. A truth campaign conducted by the Crusade This campaign is already operating as literature exposing communism is distributed by hundreds of dedicated workers in many countries. We

are seeking a million-dollar truth fund for this purpose. We hope this campaign may provide an example to national leaders of what can and should be done.

There are encouraging signs that progress is being made towards a national truth campaign. The television program, "Let Poland be Poland," is a step in the right direction. Leaders from the world of entertainment joined political leaders in exposing communist illegitimacy, inefficiency and brutality in Poland. Scores of millions viewed it throughout the world. The use of well-known entertainers assured a large viewing audience. The carping criticism of a few self-styled sophisticates detracted little.

Your financial support for our Crusade ministry is essential. I am reluctant to spend money for fund-raising when it can be used so fruitfully in spreading the message. Consistent giving will reduce the need for fund-raising, so I urge you to give regularly, generously, and with great expectations of success in the battle against communism.

With Christian love,

Fred Schwarz President
